

I am wondering why most of the TV coverage of the Pres. election in this country from major networks NBC,ABC, CBS and PBS and CSPAN's are so biased towards John Kerry. I have surveyed and wrote down events and times and he is getting 75% +++. Plus the attitude is so apperant that it is not hidden any more. So what is happening is that those of us that do not get cable do not watch TV any more. It is effecting a major part of this country. There has to be a balance to this left agenda on the TV available to all.
